

Hi. I'm Jim Morrison

UX consultant, product designer, sprint facilitator and educator; with a background in interaction design, digital service delivery and information management.

Contact me

Web: thatjim Morrison.com

Email: chat@thatjim Morrison.com

I love working on human-centered projects and believe that we can all design better experiences together.

Skills

User Research

Seeing through the lens of the user via qualitative and quantitative research methods.

UX Design

Using journey maps, user flows, sketches and wireframes, experience drives every decision.

Design Sprints

Define, test and validate solutions in five days through co-design and collaboration.

Interaction Design

Designing digital products and services with a focus on prototyping, interaction and usability.

Workshop Facilitation

Aligning teams on goals and solutions, in a more inclusive, collaborative way.
